ICE GROUP
INDUSTRIAL ICE CREAM MACHINES

2023

edition: February 2023

**REAL ALTERNATIVE TO EQUIPMENT OF TRADITIONAL
MARKET LEADERS FOR OVER 30 YEARS**

MILESTONES

2023

Activity as Trade Office – import of ice cream and dairy machines as a representative of Italian, German and Danish companies

1991-95

First own production of Expert 4000 series rotary machines and Master FF series fruit feeders

1995-97

Technical service, start-ups, upgrades and spare parts for imported machines as a background for further development of production activity

1997-98

First export sales, mainly to Eastern Europe

1998-99

First export sales outside of Europe: Argentina, Algeria, Iran, Turkey

1998-2001

Machine range expansion with Deserta machine, semi-automatic Jumbo Multi filler, Cut extruder, Expert in-line filler, Frosto continuous freezers, extrusion and hardening lines Iglo Line and Rapid flowpack machine

1999-2001

Moving into the current company seat location, extension of company machine park

2001

A completely new machine in the program - Tortica, sold to Spanish Client

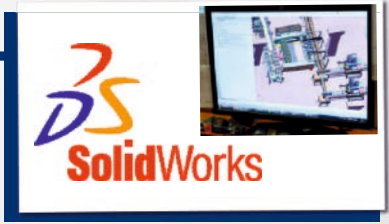

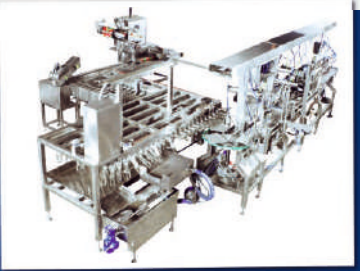

2003

First fully servo-driven Iglo Line extrusion tunnels for Clients in Greece

2005/06

2006

Purchase of Solid Works license, all documentation created in a modern 3D Software

2006/07

Rapid 9000 Servo flow-pack machine, completely servo-driven

First Iglo Line for 20.000 pcs/h for a Client in Russia

2007

First Frosto 1200 Automatic – continuous freezer with two rotary pumps and two flowmeters, controlled by PLC with touch screen panel

2010

Implementation of IPO program – intelligent production management and organization

2011

First Jumbo Robot sold to a Client in Germany

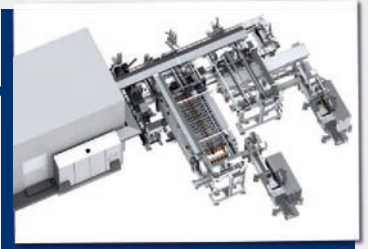

2014

Receipt of Forbes Diamonds award

2015

Two unique Multi-Task Iglo Line projects for Clients in Spain and Switzerland

2015

2016

Fully automatic Jumbo Robot 6 robotized filling line for Client in Spain

Sprinter 8000 Special for Client in Australia

2017

2018

Expert SRF supplied for R&D department of a key Italian producer

Opening new storage and office building

2018

2021

Partnership Gold OEM Partner certificate Rockwell Automation

ICE GROUP

ICE GROUP - a company with

2023

- stable position on the market as a result of **30 years of experience** in the field (2021)
- probably the **broadest range** of industrial ice cream machines, versatile fillers, freezers and extruding tunnels
- **over 1200 projects** carried out and dozens of working machines worldwide
- over **100 employees**, including 13 full-time machinery designers and 7 automation engineers creating software IN-HOUSE and providing distance-independent teleservice
- self-reliant technical assistance department supporting Customers to maintain machines in working order **7 days a week**
- qualified and open-minded staff working under **direct owners supervision** for short communication channels and the quickest possible reaction to daily issues
- **own production facilities** with machining, enabling production of over 90% components IN-HOUSE
- a mission to enable our customers quick and precise reaction to changing market needs, strictly cooperating for the good of our common key category - the final product, possibility to adjust the project to Client's requirements and space limitations as well as Client's technical standards

stable position on the market as a result of 30 years of experience in the field (2021)

2023

Property status

ownership, not lease or rental including:

- Land area: 11.000 square meters +10.500 (since 2021)
- Office area: 900 square meters
- Production area: 1.800 square meters
- Storage area: 800 square meters

Realized 2018

+2021

Legal status

Limited liability company
 Registered in District Court in Gliwice,
 Xth Economic Division of the National
 Court Registry under the No. 0000194995,
 ownership capital: 13 820 575,69 PLN,
 including initial capital 180 000,00 PLN
 and spare capital 13 640 575,69 PLN
 (as per 30.06.2021),
 NIP: 642-28-36-304
 / European VAT No. PL6422836304

over 100 employees, including 13 full-time machinery designers and 7 automation engineers creating software IN-HOUSE and providing distance-independent teleservice

In July 2014 Ice Group has finished the process of implementing a production management system with the functions of independent production plans preparation, direct steering of production resources, automatic production process feedback gathering, creating and managing production patterns, simulation of orders execution time, managing staff work quality and efficiency, automatic and current control of production in progress, supporting technological processes, analysis supporting strategic planning processes, settling employees working time.

In November 2006 Ice Group introduced new software for automation of mechanical designs - SolidWorks for the use of the Designing Department. The program enables quick transfer of designer's ideas into a 3D model, experiments with options and dimensions, and creation of detailed technical drawings. Introduction of SolidWorks was accompanied by extensive training in 3D model designing, in documentation management - PDM, and a seminar dedicated to this topic. At the end of each training stage our designers received individual certificates.

over 100 employees, including 13 full-time machinery designers and 7 automation engineers creating software IN-HOUSE and providing distance-independent teleservice

ICE GROUP

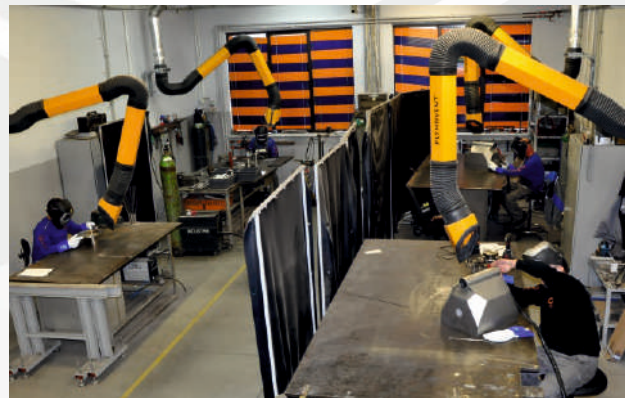

own production facilities with machining, enabling production of over 90% components IN-HOUSE

2023

Own machinery:

consisting of over 70 specialized workstations such as:

- two (2) vertical CNC centres
- one (1) horizontal CNC centre
- one (1) water jet cutter (CNC Water Jet Sweden)
- one (1) large-size CNC bending brake (press brake)
- three (3) traditional lathes with electronic read-outs
- three (3) traditional milling machines with electronic read-outs
- three (3) specialized saws for rollers and profiles
- guillotine
- bender
- rolling mill
- sander machines (COSTA)
- vertical drill for large sizes
- five (5) welding units TIG
- slotting machine
- grinding machine
- spot welding machine
- hydraulic presses
- sandblasting machine for small size parts
- sandblasting chamber for large size parts
- several dozens of specialized tools and supporting machines
